NOTICE
ORDER TO SHOW CAUSE
No. ACT-927-012
BEFORE THE BOARD OF
OIL, GAS, AND MINING DE-
PARTMENT OF NATURAL
RESOURCES in and for the
STATE OF UTAH.
IN THE MATTER OF THE
APPROVAL OF THE NOTICE
OF INTENT AND RECLAMA-
TION PLAN SUBMITTED BY
ATLAS MINERALS CORPO-
RATION, PANDORA MINE,
SAN JUAN COUNTY, UTAH.
THE STATE OF UTAH TO
ALL OPERATORS, TAKERS
OF PRODUCTION, MINERAL,
AND ROYALTY OWNERS,
AND PARTICULARLY ALL
PERSONS INTERESTED IN
TOWNSHIP 29 SOUTH
RANGES 24 and 25 EAST
SLBM, SAN JUAN COUNTY,
UTAH.

Notice is hereby given that tentative approval was given to Atlas Minerals Corporation by the Utah Division of Oil, Gas, and Mining, to continue under-
ground uranium mining, on portions of Section 1, Township 29 South, Range 24 East, and Section 6, Township 29 South, Range 25 East, SLBM, San Juan County, Utah. The name of the mine is Pandora Mine, and the person representing the company in this matter is Mr. Thomas L. Wilson, Mine Manager, Atlas Minerals Corporation, Big Indian Mines, Moab, Utah 84532.

Atlas Minerals Corporation fulfilled obligations under the Mined Land Reclamation Act of 1975 (Section 40-8, U.C.A., 1953, as amended) and will employ the following reclamation techniques on 12.1 acres which comprise the land affected. The land affected is on unpatented mining claims.

During Operations:
1) Mining will be conducted in a safe, orderly, and minerlike manner.

2) Waste rock generated from mine development will be contained adjacent to an existing dump, advancing in a southwesterly direction.

3) The main drainage channel around the proposed waste rock dump, a dry wash, will be re-routed to prevent the ephemeral water course from eroding the waste rock dump.

After Operations:
1) Extraneous debris, scrap metal, discarded wood, and unuseable buildings will be buried or removed from the location.

2) All vent holes or portals will be sealed to prevent entry.

3) Blocked or culverted ephemeral drainages will be reestablished and any installed culverts will be removed.

4) Waste dumps will be regraded to specifications.

5) The land affected by mining will be regraded and stabilized through the establishment of a vegetative cover by seeding with a specified seed mixture.

6) The main access road which skirts the operation to the west will be left open for future post-mining land uses near the mine.

Reclamation performance surety will be established upon final approval of the reclamation plan.

Any person or agency aggrieved by this tentative decision is hereby requested to submit written protest within 30 days of February 25, 1977, to the Division of Oil, Gas, and Mining, 1588 West North Temple, Salt Lake City, Utah 84116, setting forth factual reasons for his complaint, and thereafter, at a time and place heretofore established, appear before the Board of Oil, Gas, and Mining, to show cause, if any there be, why this plan should not be approved.

DATED this 16th day of February, 1977.
